

# 18. ART VERONA

## Ambidexter at Booth IT1

Ambidexter was founded in 2016 by Ulaş Parkan and christened in 2018 as a rejection of the current art ecosystem with a strong focus on contemporary painterly practices. With artists at its core, Ambidexter empowers and develops artists: they retain ownership of their art, and all profits generated by the gallery go directly into funding its future. Each exhibition is its own world, as Ambidexter seeks to push boundaries and expand the vision of what a gallery can and should be.

Please call or email for any art/artist inquiries on past/current exhibitions.
